DOGWOOD

Carefully Grown on
Transplanted Understocks

This field of Pink Dogwood is budded on transplanted white dogwood seedlings. Note the uniformity of heavy calipered well branched trees. Look at the 2 to 3 foot tree below. Order your needs today and be assured of getting the best!

Our double white dogwood are grown exactly like the pink (at left).

They have a distinctly double bloom just a bit later than the native white thus extending your dogwood season.

Single whites are grown from transplanted liners spaced in the row to form well developed specimens.
